

Oklahoma Interventional Infusion Center is now offering Olympia nutritional infusions.

Myer's Cocktail

A wellness infusion of vitamins and minerals directly to your bloodstream. Dr. John Myers pioneered this use of intravenous nutrient therapy in the 1960's. Blend of essential antioxidants and minerals given over 1 hour.

The Myers' Cocktail may help with:

- Immunity boosting
- Preventative therapy for cold + flu season
- Reduction of fatigue and inflammation
- Post-gastric bypass nutrition
- Sports performance enhancement
- Hangover remedy

Immunity

\$225

Boost your immune system and feel better faster. Blend of ascorbic acid (vitamin C), Olympia Vita Complex, zinc Chloride, magnesium and glutathione given over 1 hour.

The immunity infusion may help with:

- Immune system strengthening
- Athletic performance and recovery
- Hangover and headache relief
- Cold and flu symptoms
- Fatigue and brain fog

Tri-Immune Boost

\$75

High concentration blend of immune boosting essentials to help maintain a healthy immune response. Infusion includes glutathione, ascorbic acid, and zinc that is given over 30 minutes or can be given as an intra-muscular injection.

Quench

\$150

IV infusion blend of Ascorbic Acid, Olympia Vita Complex and Olympia Mineral Blend given over 1 hour. May help to:

- Hydrate
- Combat fatigue

Reboot

\$175

IV nutrient hydrating infusion blend of ondansetron, vitamins, and minerals given over 1 hour.

May help with:

- Hangover symptoms
- Headaches
- Nausea
- Dehydration

Can add on toradol and/or glutathione for \$25 each

Recovery and Performance

\$225

IV infusion blend of ascorbic acid, Olympia Vita Complex, Amino Blend, and Olympia Mineral Blend given over 1 hour. This infusion may help to:

- Decrease recovery time
- Enhance your athletic performance

Get Up and Go

\$175

Infusion blend of Olympia Vita Complex and Amino Blend given over 1 hour. May help to:

- Burn fat
- Feel energized
- Improve mental clarity
- Boost your metabolism

Brainstorm

\$180

IV infusion blend of Pyridoxine (B6), L-Taurine and Alpha-Lipoic Acid given over 1 hour. May help to:

- Improve cognitive function
- Information processing
- Learning
- Memory

Hydration Only

\$50

IV infusion of 1 liter saline to rehydrate.

Add on

Glutathione 200 mg

\$25 add-on

L-Glutathione is a powerful antioxidant comprised of amino acids cysteine, glycine, and glutamic acid. It plays an important role in removing toxins.

It may improve:

- Immune response
- Help to metabolize toxins and activate enzymes
- Aid the liver in metabolizing alcohol
- Help to reduce oxidative stress

Toradol 15-30 mg

\$25 add-on

Anti-inflammatory NSAID for head-aches and pain.

Ondansetron 4 mg

\$25 add-on

Anti-emetic for nausea.

NAD

\$250 for 250 mg

\$475 for 500 mg

Must pre-order. The starting dose is 250 mg given over 2 hours.

NAD's main function is the production of energy in cells. It is derived from vitamin B3. May help to:

- Boost metabolism
- Decrease pain and inflammation
- Reduce fatigue and brain fog
- Promote longevity
- Improve mood
- Aid with addiction and withdrawal
